Career Objective

MCA graduate (2025) currently pursuing AI-Integrated Python Full Stack Development training, with technical skills in Python, SQL, HTML, CSS, JavaScript, AWS, and AI fundamentals. Eager to apply programming and web development skills to real-world projects and begin a career as a Python Full Stack Developer.

Technical Skills

- **Programming:** Python, JavaScript
- **Frontend Development:** HTML5, CSS3, Responsive Web Design
- **Database:** SQL
- **Cloud Computing:** AWS
- **AI Skills**: AI Fundamentals, Prompt Engineering, RAG

Education

- **Annamacharya Institute of Technology and Sciences | Kadapa** *04/2025*
  Master of Computer Applications in Computer Science
- **Yogi Vemana University | Kadapa** *08/2021*
  Bachelor of Commerce (Computer Applications)

Professional Projects

AI-Powered RAG Chatbot | 2026

- Developed an AI-powered chatbot using Retrieval-Augmented Generation (RAG) to retrieve relevant information from a custom knowledge base and generate context-aware responses.
- Integrated document-based information retrieval to improve response relevance and provide answers based on stored content.
- **Technologies:** Python, RAG, Fast API, Large Language Models (LLMs), Embeddings, Vector Database.

AI Finance Manager | 2026

- Developed an AI-integrated finance management application to track income and expenses and organize transactions by spending category.
- Implemented category-wise expense analysis to help users monitor spending patterns and manage personal finances.
- **Technologies:** Python, SQL, HTML, CSS, JavaScript, AI Integration.

AI-Integrated Developer Portfolio | 2026

- Designed and deployed a responsive developer portfolio to showcase technical skills, certifications, education, and software development projects.
- Integrated an AI-powered chatbot to answer questions about portfolio content and provide relevant information about projects and technical experience.
- **Technologies:** HTML5, CSS3, JavaScript, Python, Fast API, AI Integration.

Vehicle Accident Prevention System (IoT) | MCA Project | 2023–2025

- Developed an IoT-based accident prevention system using sensors and microcontrollers for real-time monitoring and vehicle safety.
- Implemented sensor-based monitoring to detect potential safety risks and support timely alerts.
- **Technologies**: IoT, Sensors, Microcontrollers, Embedded Systems, Python.

Certifications

- Python for Beginners | Simplilearn SkillUp
- Foundations of Prompt Engineering | AWS Skill Builder
- SQL and Relational Databases | IBM Cognitive Class
- Responsive Web Design Certification | freeCodeCamp
- AWS Certified Cloud Practitioner | Amazon Web Services (AWS)

Internship & Professional Training

Full Stack Web Development Intern | MindSparc | Feb 2025 – May 2025

- Completed a hands-on internship in Full Stack Web Development.
- Worked on practical assignments and project-based learning.
- Strengthened practical skills in frontend, backend, and database development through hands-on assignments.

AI-Integrated Python Full Stack Development (Ongoing)

- Currently pursuing training in Python Full Stack Development with AI, gaining hands-on experience in web development, database management, cloud technologies, and AI fundamentals.
